As a passionate and driven Web Developer, I excel in creating dynamic and user-friendly websites. My ultimate goal is to obtain a position as a Full Stack Developer, where I can leverage my skills and knowledge to create innovative and captivating web applications. I am committed to staying on the cutting edge of my field, continuously learning and growing to keep up with the latest trends and advancements in the industry.

EDUCATION

Humber College, Etobicoke, On—Web Development

Sept 2022 - Aug 2023

I have acquired knowledge on all the essential elements required for becoming a skilled web developer.

Seneca College, Toronto, On—Entrepreneurship and Small Business Administration

Sept 2019 - April 2022

I have acquired numerous valuable business skills that I utilize on a daily basis, thanks to my graduation with honours.

EXPERIENCE

S2H Business Information Systems, Markham, On—Software Developer (Contractor)

Sept 2023 - Present

Implementing updates to client websites as needed using FTP connections and making changes in HTML, CSS and JavaScript.

BlueBird IT Solutions, Markham, On— Software Developer (Summer Internship)

July 2023 - Aug 2023

Participated in the development of an internal web application designed to manage customer billings and payments. Some of the tasks I was assigned to do were: Implementing and interacting with APIs, creating components, writing documentation, and writing unit tests. Technologies used: Next.js, SQL, TypeScript, AntD, Jest, Docker, Java, Spring Boot, and Git.

PROJECTS

Portfolio—Built with REACT, MySQL, and Laravel CMS

I found this project to be crucial in developing my backend skills. It involved creating a webpage using React.js alongside a Laravel CMS system. It also served as an excellent platform to showcase my other projects. Portfolio:

GiftStack—Built using ASP.NET with C#

I created GiftStack to address my past forgetfulness in getting gifts for the people in my life. This application stores information about the gifts, the recipients, and the events using web APIs.
